AKSHAY MITTUR

amittur@uw.edu | Seattle, Washington | (206) 403-0871 | LinkedIn.com/in/akshay-mittur

EDUCATION

FOSTER SCHOOL OF BUSINESS, UNIVERSITY OF WASHINGTON, Seattle, WA — June 2028

Candidate for Master of Business Administration (MBA) - Management Science (STEM)

- Dean's Merit Scholarship
- Foster Tech Club, Foster Consulting Society

BMS COLLEGE OF ENGINEERING, Bangalore, India — July 2022

Bachelor of Technology, Computer Science

- Graduated with 9.8/10.0 CGPA, Ranked 3rd & Senior Lead - Entrepreneurship Cell and Comp. Sci. Club
- Published paper "MultiStrategy Algorithmic Trader", Springer 2022

EXPERIENCE

SEATTLE GIVECAMP, Seattle, Washington — October 2026

Volunteer Product Manager

- Led an 11-person team to launch a nonprofit website with integrated payments in one weekend, translating stakeholder needs into requirements, prioritizing scope, and coordinating delivery through launch.

NVIDIA, Bangalore, India — August 2025 – August 2026

Software Engineer - II, Hardware Infrastructure

- Defined and drove observability strategy for critical chip verification infrastructure, transforming operational metrics into actionable insights for engineering leadership and enabling proactive issue identification; improved customer experience resulting in 40% faster incident response times.
- Architected cloud transformation in NVIDIA's hardware business unit, migrating monolithic chip verification infrastructure (70%+ of total internal traffic) to cloud-based microservices, reducing infrastructure costs by 20%.

BOOKING HOLDINGS (Booking.com, Priceline, Agoda, Kayak, OpenTable), Bangalore, India — April 2025 - August 2025

Site Reliability Engineer

- Managed and migrated the configuration management infrastructure powering global data centers from on-premise to cloud, resulting in yearly cost savings of $800,000 and elimination of critical security vulnerabilities.
- Implemented the decommissioning of 3 European private cloud sites, optimizing the data center infrastructure footprint and saving Booking.com over $1.9 million annually.
- Spearheaded 0-to-1 development of an on-demand virtual machine lifecycle management platform for internal engineering teams, streamlining infrastructure deployment requests and reducing provisioning time by 80%.

CISCO SYSTEMS, Bangalore, India — February 2022 - April 2025

Site Reliability Engineer - Intern, I, & II, Data Center Networks *(November 2023 – April 2025)*

- Led a team of 6 engineers as a product owner to design and build an end-to-end application for firewall automation, along with life-cycle management for managing company-wide security, reducing turnaround time from 3 weeks to 6 days.
- Co-founded and chaired a software engineering and peer-learning focused forum and mentored over 30 peers and early-in-career team members, increasing organizational engagement and quicker ramp-up times.
- Engineered robust applications for efficient network data processing and optimized data retention strategies to support internal data center architectures, resulting in 50% faster data response times.
- Automated network automation workflows that streamlined configuration management processes, improving overall operational efficiency for the network team and eliminating 500+ manual engineer hours.

SKILLS AND ACTIVITIES

- Skills: Python, Docker & K8s, REST API, agile product management and ownership, product strategy, data visualization and storytelling (Tableau & SQL)
- Certifications: Scrum Product Owner, ITIL 4, CCNA, Devnet Associate
- Community Impact: Volunteered with rural schools to teach English and Math to 200+ students bi-weekly
